

# DANBURY RIO & DIAMOND

BASED ON THE CLASSIC VW TYPE 2 –  
EITHER FIXED OR ELEVATING ROOF MODELS

## New Danbury VW Rio – keeping the legend alive!

The world famous Volkswagen Type 2, manufactured by VW Brazil, is now powered by a modern, economical water-cooled engine (1400cc and 78 bhp). The vehicle is now fitted with a powerful 55 amp alternator, electronic ignition, fuel injection and a catalytic converter exhaust system, front servo-assisted disc brakes and rear drum brakes. The result of this modern technology is that your vehicle looks like an original Type 2 however is powerful enough for today's traffic demands and as reliable as a modern VW product!

# DANBURY RIO

Experience the true nostalgia of camping holidays in a classic Danbury Rio whilst having a vehicle that is truly practical and a pleasure to own and drive! The traditional looks with the drivability of a modern everyday vehicle.

Full-length kitchen unit furniture on nearside incorporating metal-vented gas locker, stainless steel hob and grill (an optional gas oven is available) with matching sink and electric pumped cold water.

Removable 12 volt electric cool box (optional fitted 40 litre fridge with an ice box and interior light).

Removable freestanding centre-mounted table with detachable leg.

Rear metal-framed 'rock'n'roll' rear seat (with storage underneath) that cleverly converts into an ample double bed in one simple operation complete with two standard rear lap-style seat belts (optional three point rear seat belts).

Interior lighting via two side-mounted strip lights and two rear-reading spot lights.

Optional rear-side mounted wardrobe.

Either the standard height fixed metal roof or an optional 'pop up' raising roof with 100% fully waterproof side canvases. Option of an extra double roof bed to make this vehicle sleep four!

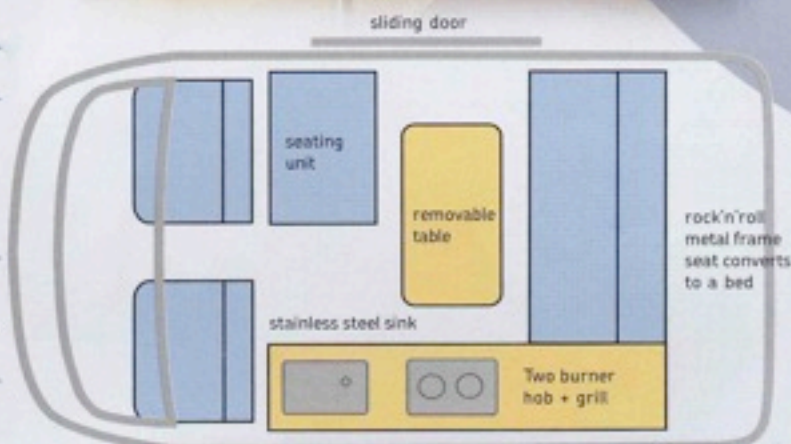

You can also choose either a caravan-type opening roof vent (increases vehicle height by 70mm) or an optional flush fitting large glass sunroof.

An independent rear blown-air heating system is available as an option allowing you to have heat for rear passengers whilst driving and also doubles as a camping heater when stationary.

Another improvement on the old Type 2's is the standard fitting of comfortable new Golf-style front seats

Upholstery - Front and rear seats upholstered in a standard Danbury modern hard-wearing vinyl or the choice of a large range of optional fabric or leather interior finishes to suit all tastes. Silver screens are supplied for the front of the car and quality lined curtains are fitted to the sides and rear.

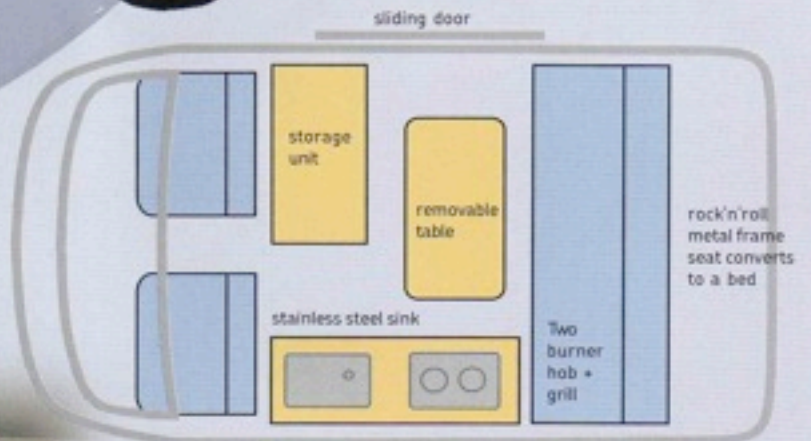

Flooring - hard-wearing wood-effect vinyl.

# DANBURY DIAMOND

The Danbury VW Type 2 Diamond is mechanically identical to the Danbury Rio. The Diamond has been designed for those people who like to have a luxurious large bed. The internal equipment specification is the same as the Rio and differs only in its furniture layout only.

The Diamond rear bed is in fact the same size as a domestic king-size bed! The Diamond has full access from the front cab seats to the rear, even when the bed is being used! It can also seat five people with seatbelts as standard (or seven people with the optional middle removable bench seat). The split, well-equipped kitchen unit is mounted a third back along the nearside and also behind the right hand seat allowing you to walk through from the front cab area to the rear of the vehicle. The optional 'pop-up' raising roof and roof beds are available to sleep a total of four people.

At Danbury MotorCaravans we pride ourselves on our excellent craftsmanship utilising the highest quality materials.
